Description

This 2023 Ford Kuga T ST-Line Edition is a superb example, having had only one owner since new. It boasts a responsive 1.5L petrol engine and meets the Euro 6 emission standards. For your convenience, it features a Ford Keyfree System for keyless entry and starting, along with electronic automatic temperature control for a comfortable cabin environment. The full LED headlamps, including automatic on and follow me home lighting, provide excellent visibility, while the rear view camera aids in parking manoeuvres. This particular Kuga ST-Line Edition stands out with its low insurance group rating, making it an economical choice for many drivers. The inclusion of features like the rear view camera and automatic climate control demonstrates a higher level of specification compared to many similar vehicles. This well appointed Ford Kuga offers a blend of practicality, modern technology, and efficient performance.
