Description

This 2021 Ford Kuga ST-Line Edition offers a practical and modern driving experience, making it a sensible choice for those seeking a reliable family vehicle. Powered by a 1.5L petrol engine that meets Euro 6 emission standards, this model combines efficiency with the sporty styling associated with the ST-Line trim. The interior is equipped with dual zone electronic automatic temperature control, ensuring comfort for all passengers regardless of the weather. Convenience is prioritised through the Ford Key Free system, which includes both keyless entry and a power start button, while the rear view camera and parking assistance make manoeuvring in tight spaces straightforward. Visibility is also enhanced by full LED headlamps that feature automatic activation and follow me home lighting. Choosing this particular Kuga provides several advantages that set it apart from other vehicles in its class. The inclusion of the ST-Line Edition trim level offers a balance of style and functionality, while the low insurance group rating makes it a more economical option for daily running costs. By integrating advanced lighting technology and user-friendly climate control, this vehicle ensures that both the driver and passengers benefit from a comfortable and well-equipped environment. These thoughtful features work together to provide a driving experience that is both stress-free and cost-effective, distinguishing this Kuga as a well-rounded option for a wide range of drivers.
